

Challenger Series Universal - Model C-UNI2

Our Universal Trailer is one of the handiest little trailers you'll find! Built in either a 4'x6' or a 4'x8', you may choose to use this trailer to pull behind a 4-wheeler while hunting or attach it to your garden tractor and load this little guy up with mulch and potting soil to create a beautiful garden.

The 2" x 2" 11-gauge square-tube tongue with a 2" coupler and safety chains is formed to provide a level ride when coupled to most vehicles.

This Universal Trailer comes with a 1,500lb idler axle with EZ-Lube hubs and 205/65-10 C rated bias utility tires on 5-bolt white wheels, which makes it ready to travel anywhere you want to go. Unlike many small trailers, this wheel/tire combination is highway ready!

The C-UNI2 model comes equipped with a 43" wide x 3' tall ramp gate that makes loading a breeze! The ramp gate will also fold forward into the bed (*shown to left*) to help eliminate wind resistance when hauling empty.

We offer 5 standard colors (*no upgrade charge for our colors!*) available: CAT Black, Smoke Grey, Carmine Red, CAT Yellow, and John Deere Greene.

Give your nearest Dealer a call today to check out a Finish Line Trailer model C-UNI2!
